# Contents

Albrecht I., Zábrodský V.: Systolic and diastolic pressure and dp/dt of the left ventricle in the rat during development . . . . .	183
Aušková M., Řežábek K., Zikán V., Semonský M.: Induction of oestrus and ovulation with an ergoline derivative, substance VÚFB 6638, an inhibitor of prolactin secretion . . . . .	417
Bárdoš P., Seress I.: Determination of transmission characteristics of intravascular catheters . . . . .	475
Baudyšová M., Tolar M.: Influence of cold on size of L fibroblasts . . . . .	549
Brabec V., Šebestík V.: Survival and sites of sequestration of erythrocytes in normal and "hypersplenic" rats . . . . .	119
Chlebounová J., Řežábek K., Šeda M., Semonský M.: Effect of D-6-methyl-8-ergoline-1-Ylacetamide (Deprenon) on the FSH content of the rat pituitary during the oestrus cycle and pregnancy . . . . .	113
Chválová M., Kuncová M., Havráňková J., Paleček F.: Regulation of respiration in experimental silicosis . . . . .	539
Fiala J., Brabec V.: Osmotic resistance and phagocytic activity of leucocytes of hypersplenic mice and rats . . . . .	569
Fischer J., Jilek L., Trojan S.: Qualitative and quantitative neurohistological changes produced in the rat brain by prolonged aerogenic hypoxia in early ontogeny . . . . .	211
Gerová M., Gero J., Doležel S., Konečný M.: Postnatal development of sympathetic control in canine femoral artery . . . . .	289
Gutmann E., Hašek M.: Fate of syngeneic and allogeneic homografts of minced muscles in the rat . . . . .	321
Gutmann E., Melichna J., Syrový I.: Developmental changes in contraction time, myosin properties and fibre pattern of fast and slow skeletal muscles . . . . .	19
Havassy I., Bođa K., Košta K., Kuchár S., Rybošová E.: Passage of <sup>15</sup> N-labelled urea nitrogen from the blood into the sheep rumen and its recirculation . . . . .	277
Havassy I., Bođa K., Košta K., Rybošová E., Kuchár S.: Retention of intravenously administered <sup>15</sup> N-labelled urea in sheep . . . . .	297
Herget J., Holuša R., Paleček F.: Pulmonary hypertension in rats with experimental emphysema . . . . .	55
Herget J., Holuša R., Paleček F.: Development of experimental pulmonary hypertension . . . . .	527
Hník P., Holas M., Krishna-Reddy V., Votava J.: Some factors affecting reflex muscle atrophy in rats . . . . .	385
Holečková E., Baudyšová M., Michl J.: Effect of acclimation to cold on rat kidney growth in vivo and in vitro . . . . .	97
Janda J., Linhart J., Kasalický J.: Experimental chronic ischaemia of the skeletal muscle in the rat . . . . .	521
Javorka K., Tomori Z.: Haemodynamic changes in different parts of systemic circulation during the apnoeic reaction of olfactory-trigeminal and vagal origin . . . . .	67
Javorka K., Tomori Z., Herget J.: Blood pressure changes in the pulmonary artery and the cardiac chambers during different forms of apnoea . . . . .	251
Kautská J., Mišustová J., Novák L.: The radioprotective effect of serotonin and its influence on the course of respiratory exchange in correlation to age . . . . .	453
Keller O., Butkhuzi S. M., Vyklický L., Brožek G.: Cortical responses evoked by stimulation of tooth pulp afferents in the cat . . . . .	45
Korpáš J., Kalocsayová G.: The expiration reflex from the vocal folds of the rabbit . . . . .	333
Kovářů H., Lisý V., Lodin Z.: The in vitro effect of different substrates and high potassium concentration on the respiratory rate of slices, cell suspension and homogenate of brain . . . . .	489
Kovářů H., Lisý V., Lodin Z.: The influence of different substrates on the rate of oxygen uptake by brain cell suspensions, homogenates and slices in vitro . . . . .	481

Kreisler K., Petrásek R.: Changes of carbohydrate metabolism during satiety and after varying periods of fasting in rats adapted to intermittent starvation .	271
Kselíková M., Bibr B., Lener J.: Radioisotope ( <sup>99</sup> Mo) study of the kinetics of molybdenum clearance from the blood and of the role of blood components .	83
Kuntscherová J., Vitouš J., Mertl F.: Utilization of injected choline by the brain and ileum of albino rats .	461
Lišková Z., Strunecká A., Drahota Z.: The cytochrome and phospholipid content of the mitochondrial membrane of the neonatal and adult rat kidney .	221
Lišková Z., Strunecká A., Drahota Z.: The metabolic activity and equipment of the mitochondrial membranes of different tissues .	229
Mareš P., Wirthová Z.: Triggering of cortical epileptogenic focus discharges by sciatic nerve stimulation in rats .	423
Mareš P., Faladová L.: Cortical somatosensory evoked potentials in adult rats .	431
Melichna J., Gutmann E., Syrový I.: Developmental changes in contraction properties, adenosinetriphosphatase activity and muscle fibre pattern of fast and slow chicken muscle .	511
Mourek J., Průžková V., Prokeš J., Stavovčiková O.: Effect of anoxia on <sup>32</sup> P incorporation into ATP. Study of the mitochondria in the CNS of rats of different ages .	37
Mourek J., Štastný F.: Influence of age hypoxia on the blood plasma calcium content in the rat .	447
Németh Š., Vigaš M., Straková A., Červen J.: Effect of Noble-Collip drum trauma on blood oxygen, carbon dioxide, reserve alkaline and haematocrit values in rats with respect to adaptation to this type of injury .	101
Novák L., Koláčný I., Šikulová J., Vlková G.: Resistance of the fluorocitrate-aconitase complex to natural inactivation and heat denaturation in vitro .	555
Paul K., Dittrichová J.: Development of quiet sleep in infancy .	11
Pohlová I., Karen P., Jelínek J.: Determination of renin activity of kidney homogenates .	89
Ponec J., Lichardus B.: On the role of increased blood pressure in the mechanism of volume natriuresis and polyuria in rats .	261
Roztočil K., Přerovský I., Novák P.: Tissue-blood <sup>151</sup> I and <sup>153</sup> Xe transfer in the presence of raised capillary filtration .	327
Rybák M., Rybáková B., Koutský J.: Trypsin-like enzymes of human uterus wall and their relationship to plasminogen and kinin-system activator .	467
Schreiber V., Příbyl T., Jahodová J.: Interaction of dithiocarbomoylhydrazine pituitary inhibitors and oestrogen in rats .	407
Sedláček J.: The dependence of superficial infraslow potential oscillations of brain hemispheres on osmotic and ionic changes in developing brain tissue of the chick embryo .	497
Semiginovský B., Jakoubek B., Kraus M., Erdősová R.: Stress-induced changes of the amino acid uptake and protein synthesis in the brain cortex slices of rats. Effect of adrenalectomy .	503
Servít Z., Strejčková A.: The effect of diazepam on different patterns of epileptic electrographic activities in the turtle brain .	29
Sova O., Grega B., Adam J.: Influence of protein depletion on the amount of ninhydrin-positive substances in rat urine .	311
Strunecká A., Nováková O., Kubišta V.: A method for the determination of specific radioactivity of phosphates in adenosine triphosphate and arginine phosphate in biological material .	107
Strunecká A., Kubišta V.: Incorporation of <sup>32</sup> P orthophosphate into energy-rich compounds of muscles of <i>Schistocerca gregaria</i> during rest and flight .	395
Šimek V.: Energy metabolism of golden hamsters adapted to intermittent fasting: influence of season and sex .	437
Trojan S., Jílek L., Staudacherová D., Trávníčková E.: Adaptation of rats to repeated aerogenic hypoxia in early postnatal ontogenesis and adulthood .	199
Vigaš M., Németh Š., Jurčovičová J.: Posttraumatic regulation of insulin secretion in adapted rats .	245
Viktora L., Jozová O., Zoubková M.: Free haemoglobin and the mechanical and osmotic resistance of red blood cells in laboratory animals .	565
Vrána V., Slabochová Z., Fábry P., Kazdová I.: Influence of diet with a high starch or sucrose content on glucose tolerance, serum insulin level and insulin sensitivity in rats .	305

Vybíral S., Janský L.: Non-shivering thermogenesis in the golden hamster . . .	235
Záhoř Z., Czabanová V., Komárková A., Bilyk I., Flandera V.: The dependence of post-reproduction arteriosclerosis (arteriopathy) in female rats on breeder diet . . .	75
Zlatoš L., Barta E., Hrivňák J.: Myocardial extraction of individual plasma non-esterified fatty acids in puppies in the early postnatal period . . .	1

#### *Short communications*

Dobiášová M., Faltová E.: Uptake of $^{14}\text{C}$ -cholesterol by elastin and collagen . . .	479
